Brainstorming: Document Interpretations and Recording

Document and legal interpretations

Participants discussed a document they referred to as “Contracts payable in gold.” One participant cited a Congressional Research Service (CRS) document, described as dated April 25, 2025, and quoted the statement that a “crime of violence may be committed by omission.” They used omission as a framework for discussing how incomplete information can affect someone’s ability to respond. These were participants’ interpretations, not conclusions established in the meeting.

A participant shared dictionary definitions of “L” and “designate,” including “chosen but not yet installed.” The participants then brainstormed a symbolic interpretation: removing the L from “gold” leaves “God,” while the L could represent a marker or location. They connected this idea to the document’s discussion of gold, money, and a “state as person.” This remained an exploratory interpretation.

The participants read passages distinguishing coin or specie from paper currency, and passages concerning ownership and parity. They interpreted these passages through a broader theory that a person’s property or value is separated from them and held at an imagined “island” or “state as person,” with access mediated by institutions. The related analogies involving birth records, an umbilical cord, a bank account, clergy, and middlemen were presented as the participants’ theory, not as verified legal or financial facts.

Broader themes and status

The discussion also developed a distinction between individual independence and interdependence. Participants argued that interdependence entails responsibility toward others and the environment, and is different from collectivism, which they characterized as removing individual responsibility. This was a conceptual discussion; no policy or other formal decision was made.

One participant said they had sent an idea and expected it to be received around the previous day, but had not yet confirmed receipt. The participants preferred not to share it before receipt was confirmed.

No formal decisions were recorded.

Action items

Owner unassigned: Confirm receipt of the submitted idea before sharing it; after confirmation, take a photo and send it to the other participant.

Owner unassigned: Preserve the original recording, remove its front end and names from a copy, and send the edited copy to the other participant.

Owner unassigned: Call the other participant, as requested.

Got it off yesterday? I got it off last week. Oh. Oh. I did... I'm gonna... I, I wish I could send you a physical copy of what I got, what I get- Oh, man.

Unknown speaker 00:12

I would, I would pay- It's not, it's not what you think. I mean, what I did, um- I would pay you. I would pay to see it. If you wanna- Yeah ...

Unknown speaker 00:20

if you're willing to put it together, whatever it takes. No, I can... I, no, it's, I, it's, it's nothing like you think. I mean- Okay ... what I did is I sent off, um, an, an i- an idea. Mm-hmm.

Unknown speaker 00:31
And, and the funny thing is, is I, I c- I'll take a picture of it. Okay. I'll take a picture of it and send it to you, but I gotta make sure that it was...

Unknown speaker 00:39
It, it was supposed to be received sometime around yesterday. Well, don't worry about it until after you know that, for sure. Yeah, and I, but I- Yeah ...

Unknown speaker 00:46
so I'll, yeah- 'Cause I don't want it out there until you know for sure. No, when I know that, yeah, when I know that it's been received, I- Yeah. But- Yeah ...

Unknown speaker 00:52
what the funny thing is, um, like I said, I, I started thinking about what I'm trying to accomplish. Mm-hmm. And then I realized I just, I need...

Unknown speaker 01:01
What you and I have done, um, transcribed is so powerful. Mm-hmm. And, and I c- I keep re-li- listening to 159 and 160. Okay.

Unknown speaker 01:13
And then I listen to, I don't know, what the, what, whatever the last one I think you and I did was 163 or something like that. Mm-hmm. Which then puts all that shit back together. Mm-hmm.

Unknown speaker 01:22
With, a- and then of course with the eight-minute video and some other stuff, it lays out a really unbelievable path of omission. Mm.

Unknown speaker 01:34
And I mean, I, if you go to the, the, even the telegram- Mm-hmm ... when I posted today- I saw that yesterday. Okay ... the, the omission. I haven't seen that today yet.

Unknown speaker 01:43
That, yeah, so I mean, I found a document that actually, it's a congressional research, CS- CRS. Mm-hmm.

Unknown speaker 01:48
But it said, "Supreme Court clarifies that a crime of violence may be committed by omission." I saw that. And that's April 25th, 2025. So they're, they're- Wow ...

Unknown speaker 01:59
uh, this omission, this lie by omission, it, it, it's, it, it's the impetus for everything that they do in their fucking courtrooms. Mm. I mean, because think about this.

Unknown speaker 02:09
If you told, if you called me up and said, "Kurt, I, I got this thing and I, I really need some help." Mm-hmm.

Unknown speaker 02:14
You already know that I'm gonna, "Goddammit." You know, I might even say, "Fuck, goddammit," but, "Yes, what do you need from me?" Yeah.

Unknown speaker 02:21
So I'm gonna do all my na- my, my, my I don't wanna do it upfront. Mm-hmm. But then because I wanna do it, that comes in after. Mm-hmm. Now, here's the thing.

Unknown speaker 02:30
You say, "Okay, so here's the situation," blah, blah, blah. And you tell me 99%. Mm-hmm. Because the other stuff is too embarrassing. You're, you're too- Right ...

Powered by Notta.ai

Unknown speaker 02:39
ashamed, or, I mean, it, it implicates you. I mean, you did- Mm-hmm ... something stupid. Mm-hmm. So you tell me 99%, and then I go and spend the next week- Mm-hmm ...

Unknown speaker 02:48
coming up with an idea that, okay, all right, man. Th- this is, this is what I came up with. It looks fantastic. Here it is. But it's based upon the 99%. Not the omission. Yeah.

Unknown speaker 02:59
A- and, and, and you left something out. And, and the problem is, is that my answer is only as good as the information I got from you. Yes.

Unknown speaker 03:09
And the fact that you left something out because you were embarrassed, ashamed, or whatever- Right ... I, I, I, my, my findings, everything I did now is based upon the 99%, not the 100. Right. Yep.

Unknown speaker 03:20
And so the, by leaving something out, I can't even respond properly. Right. And that's what they do, do to us. Right.

Unknown speaker 03:27
They, they create this omission that we then admit to, and so we're the ones that are actually lying. We're lying by omission. Mm-hmm. We're not taking full responsibi- ability of our lives. Yeah.

Unknown speaker 03:38
We're the ones ultimately responsible for all this because, because w- we, we either through faith, which is, or superstition- Right ...

Unknown speaker 03:47
or whatever words you wanna use, but the reality is, is being all present and accounted for- Mm-hmm ... from fertilization to last breath removes any chance of a, an, an omission. Right.

Unknown speaker 03:57
And now if they're using an, a, an unsurpassed statistic in their system- Mm-hmm ... when I said, "Oh, fuck no, no, no, no, no.

Unknown speaker 04:05
That record is an unsurpassed statistic." It, it, it, it terminates at infancy. Mm-hmm. And here I am 66 plus years later, and you want me to be subjected to the undue influence of infancy. Mm-hmm.

Unknown speaker 04:16
That's what you're doing to me. Mm-hmm. You know, just based upon that record. Yep. Or that record, recording me, re-tying me back up to, to, to the matrix. Mm-hmm.

Unknown speaker 04:26
You know, making me a mama's boy that doesn't have any legal capacity. That's what you're doing with that record. Right.

Unknown speaker 04:31
So if that record's in play, if you're using that record, it's an unsurpassed statistic, and an unsurpassed statistic is a lie by omission. Yes.

Unknown speaker 04:38
Which might be actually considered, uh, the Supre- Supreme, by the Supreme Court as a crime of violence- Yeah ... against me. Yeah. Which supports everything that you've been saying. Yeah. Yeah.

Unknown speaker 04:49
So, but the- So- ... the problem is, is it's that omission. Yeah. Yeah. And, and the fact that I cannot answer you honestly because you didn't give me all the, all the facts. Right. Yeah. Yeah.

Unknown speaker 05:00
Absolutely. It's not my fault. It's yours. Mm-hmm. Yeah. You're, you created the very fault. Yeah. The turning point- Yeah. ...

is a fault. Yeah. Yeah. Absolutely.

Unknown speaker 05:10
So- So I, I think I failed in finding the, the sentence. That's, okay, so now you're g- you and I are gonna have that conversation.

Unknown speaker 05:18
Okay, but first I wanna say this before we get started with that, 'cause this is where one of the separate rabbit holes I went down.

Unknown speaker 05:25
I've read it four or five times, but you know I suck at picking it out in legalese.

Unknown speaker 05:30
But it said, "If gold is God, what is the L?" So I actually looked up L, uh, in Merriam-Webster's, just the letter L.

Unknown speaker 05:42
And, and the fourth definition was, "One designated, especially in the 12th, 12th in order or class." And so then I looked up designated, and it's basically to indicate and set apart for a specific group, purpose, office, or duly designated someone to plan, plan a pa- well, that's ...

Unknown speaker 06:03
And then the point Oh, you've gotta be kidding me ... uh-uh, to point out the location of a marker, to distinguish as to class, specify, sp- specify, stipulate, denote.

Unknown speaker 06:19
And so then I looked up designate, and it says, "Chosen but not yet installed." Expletio. Mm-hmm. And it says, the, the thing says, as an ambassador designate. Okay. Are, are you recording this?

Unknown speaker 06:37
Yeah. Okay, here's the thing. So you got- Wait ... C-O-D- Well, go ahead. Go ahead, I'll listen.

Unknown speaker 06:44
No, finish, finish, because I, I, I already see it, and you're- Go- You, you found this weird thing- Yeah ... that is so obvious what they've done. Yeah. Okay, go ahead. Go ahead.

Unknown speaker 06:54
God, the first estate God. Mm-hmm. The idea of gold and God, if you go into the Bible, there's all kinds of references where they link those two up.

Unknown speaker 07:02
But what you've discovered with the letter L, by the way, L could be actually written out E-L. Yes. Yes. Now you got- Wow ... L. Uh-huh.

Unknown speaker 07:13
But what you just, without even going any further based upon what you just told me, what they do is they, they, they re- the gold, which is, which they removed through House Joint Resolution 192 in 1933 or- Mm-hmm ...

Unknown speaker 07:24
1932 or whatever it was, the Banking Act- Yeah ... during the New Deal where all this other shit was going on, which is this document, by the way. Yeah. Contracts payable in gold.

Unknown speaker 07:35
Uh, it's contracts payable in God. Yeah. And I kept looking at that as I was reading through it. Um, so yeah, I mean, it was like, I mean, it, it's like chosen but not yet installed.

Unknown speaker 07:53
What's really funny is I, the, the T- there was a TV show, uh, that was huge, it went for four or five seasons, called, um, oh, it was a k- a bunch of kids where there was an in between.

Powered by Notta.ai

notta

Unknown speaker 08:08

Huh, I don't think I ever saw that. Uh, what is it called? The In Between. Let me, I, let me Google it because it, I mean, I, I can already hear people screaming, "It's this show, Kirt.

Unknown speaker 08:20

The In Between is in the in between." Uh, TV show. The In Between. What is, what is it? Oh, g- uh, Stranger Things. Huh, I never heard of that.

Unknown speaker 08:40

Well, Stranger Things had, the main character in Stranger Things, her nickname, no, uh, nickname- ... was El. Oh, man. Wow. And, and the whole show revolved around her.

Unknown speaker 08:56

But El, the letter L or E-L, is they, they take the, the United States, which does contracts payable in gold- Mm-hmm ...

Unknown speaker 09:07

took, took that L, and they marked the location on the island where the treasure's located, and they called it the state as person. Yes. Okay. And that's the beach. Mm-hmm.

Unknown speaker 09:21

But then they took your treasury, your, your, your link to God, your, your, your, all the descendants, all the effort, all the equity you had in all of the earth itself- Mm-hmm ...

Unknown speaker 09:32

is now is located on that beach in between, uh, where the cut, the, the interstate thing- The in between place, yeah ... the in between, between the unborn and born. Uh-huh.

Unknown speaker 09:43

When they clamp and cut the cord, they create that shoreline, and then they place that, they mark that, that's the L, but w- that for gold- Mm-hmm ... which pays the debt. Yeah.

Unknown speaker 09:53

But they, by taking the L out, it became God. Oh. And so now- They've taken God ... federal small app, federal small app is, is competence between man and God. Yeah.

Unknown speaker 10:05

So you have to actually be able to use this state as person created in, in, on the 26th of December, 1933. You have to have access to that island in order to pay the bills. Yeah.

Unknown speaker 10:19

And that island is Curtis Richard Kalimbock in my case. Mm-hmm.

Unknown speaker 10:23

And, but, but if I've been cut off, if, if, if it becomes an individual rather than part of the, the general, you know, from fertilization to last breath- Right ...

Unknown speaker 10:31

if it becomes individual, then it doesn't work. Mm-hmm. That's why contracts payable in gold... Uh-oh. Did I, I did, did I give it away? I, uh, uh I did. No, I, no I didn't.

Unknown speaker 10:46

I, let me- I didn't get it if you gave it away. Well, what it- Did you go away? I'd like to, I'd like people, yeah, I'd like people to have at least another week with that fucking thing.

Unknown speaker 10:59

Well, I'm not gonna, I'm not gonna s- send this out until after when you say, you know? But- Well, I mean, it's, the, the whole idea is, is number one, that you discovered this L. Mm-hmm.

Unknown speaker 11:11

And I think that's really huge because God is gold- Mm-hmm ... minus the L. Yeah. And that L is a marker- Yeah ... that has

Powered by Notta.ai

notta
been placed. It, that's the headstone or that, that's the location.

Unknown speaker 11:27
You know, it might, it might be an effigy. Yeah. But it's where God comes to rest. Yeah. And so you got this place, this island, which, well, it becomes an island, and then the word sound.

Unknown speaker 11:40
You know, where you have to cross- Mm-hmm ... over this, the sound. Or the sound, again, could be not only a, ex- an expanse of water, but it can also be a word. Yeah. You know what I mean?

Unknown speaker 11:55
Uh- It's like- And, and that's the whole idea ... wow. Um, but yeah, this- Well, I'll send this to you, but it says, the other thing it says L can mean is to call by a distinctive title or term.

Unknown speaker 12:07
Well, that's, the title of nobility is the second estate island. Right. Yeah.

Unknown speaker 12:12
So Curtis Richard Kalimbock is that ca- But it, it, because they clamped and cut it off, it became a terminal point or a decedent estate, when in fact I'm sitting here right now. Mm-hmm.

Unknown speaker 12:23
So- The king is not dead. I, I... The king, by extension of my 46 chromosomes back to the original sovereign- Uh-huh ... um, not only am I the king, I'm the court. Yeah.

Unknown speaker 12:33
'Cause the, the definition of court is what? It's, it's where the person- That's right. Mm-hmm ... in suit of the sovereign sojourn with their regal retinue. Uh-huh.

Unknown speaker 12:40
Retinue obviously meaning uterine. Yeah. So- Yeah, they, they took the money out and they gave everybody cake. Well, so in a way- Cake. Let them eat cake ... cake.

Unknown speaker 12:53
Yeah, so actually you could look at it the other way, is that in order to use the, to create the word gold, they inserted the L, which is the marker. Does that make any sense?

Unknown speaker 13:12
No, it goes the other way, Linda. Okay. Well, that's what I did was look at it- Because, no, no, because the gold always has been the standard of- Yeah ... form of payment. Mm-hmm.

Unknown speaker 13:20
So what they did is they removed the L from the gold- Mm-hmm ... and they gave everybody a, a, a god. A false god. Well, no, I don't, I don't, I... There is no false god. Right.

Unknown speaker 13:34
They gave people God. They, they created a holy land where that was deposited. Okay. I mean, now think about it. I mean, today is the day of national god. Mm-hmm. A holy nation- Right ...

Unknown speaker 13:47
where the L is deposited. Uh-huh. Okay. And that is on that island.

Unknown speaker 13:54
And the, uh- That's why the last scene of the, the last scene of the movie Trading Places is where the vessel and, and, and the, the, um, the mooring line is tied to that island. Mm-hmm.

Unknown speaker 14:05
It's all one. Yeah. Baby umbilical cord and extra embryonic material is your godly estate intact- Right ... where, where that record is no longer an unsurpassed statistic. Yeah. Yeah, yeah.

Powered by Notta.ai

notta

Unknown speaker 14:17

I, I saw what you were saying, that the gold is, was the original payment. Yeah. They extracted the L and they gave everybody a, a, a, a what? A, a, um, Aaron at the ba- base of the mount.

Unknown speaker 14:30

They gave everybody an American idol. Yeah. And the American idol is that birth certificated character. Mm-hmm. And they, and that became the coin of the realm. Mm-hmm.

Unknown speaker 14:39

But the coin of the realm was actually the word as opposed to the actual gold. Yeah. Yes. They took the gold out for themselves- Mm-hmm ...

Unknown speaker 14:46

and they said, "Everybody inside that religious nation will use notes." They'll pass notes between each themselves as debt, and then that debt gets paid outside the system by the gold. Mm-hmm.

Unknown speaker 15:00

But inside the system, they're all using script- Right ... or, or scripture, or chits, or... You know what I mean? Sure. Or tickets, or whatever they wanna call them. Mm-hmm.

Unknown speaker 15:08

Inside the corporate realm, corporate fetal maternal, inside that realm they only use script. Yeah. Well, so that's one of the things I pulled out, but it's not one sentence.

Unknown speaker 15:19

It's, "The laws of the United States recognize two kinds of money, coin and paper. The term dollars in species means gold or silver coin dollars.

Unknown speaker 15:29

Dollars in currency means dollars in notes or paper money current in the community." That's the... And that's in the corporate, in the corporate realm. Yes. Mm-hmm. That's...

Unknown speaker 15:42

So there's no money in the corporate realm. Right. There's only the coin of the realm. Mm-hmm. Yeah. And that's, that's, that's the name. That's Linda Marie Hildreth. Linda M, period, Hildreth.

Unknown speaker 15:50

Which is evidencing your equity. Mm-hmm. Yeah. If you know how to use it. Yeah, yeah. Um, but say that again.

Unknown speaker 15:58

D- read that again because there's something else I, I, I can't come up- It says the, um... It's in, I think, the second paragraph, um, or third.

Unknown speaker 16:05

"The laws of the United States recognize two kinds of money." Okay, okay, okay. Stop, stop.

Unknown speaker 16:11

So here's what most people don't know, and that's why this, no matter what, this, this, this recording is, is... It still has to, it has to get out there as a copy, Edima, no matter what.

Unknown speaker 16:21

I mean- Yeah ... we're all, we're all big boys. We're, we're all big boys together. Well, I'll just, I'll re-record it and delete the first part of it, so. Okay, whatever. Um, here's the problem.

Unknown speaker 16:30

Nobody knows, and I mean this, nobody fucking knows this, Linda, that, that the dollar sign- Mm-hmm ... the dollar sign is an S with two bars through it. Yes. For- What? ... species, right.

Unknown speaker 16:41

No, for gold. For gold. Mm-hmm. Yeah, for gold. For gold. Yeah, for true gold. Well, how come you never see, how come you

Powered by Notta.ai

never see the S with two bars anymore?

Unknown speaker 16:49
Yeah, you haven't for a long time because they've- Well, what, what is the S with one bar? That's, um, the silver. That's peso. Yeah. Mm-hmm. It's the peso. Yeah. So the Americas are, are...

Unknown speaker 17:02
While the American people work for peso, the, the, the, the S with $1- Mm-hmm ... or with one bar. They're all getting paid in silver. Mm-hmm. But the debt to the United States is in gold. Yes.

Unknown speaker 17:14
What's the parity? What, what's gold equity? Let's pretend it's at 3,000. 4... I think it's 4,000 something, and silver might be around 50. Okay, so look at that.

Unknown speaker 17:24
So the American people are earning silver. Mm-hmm. And they, they think it's a dollar. It's not, it's a peso. Right. But they gotta pay the United States' debt, which is in gold. Mm-hmm.

Unknown speaker 17:34
So your 50, your, your $50 dollar, your $50 peso- Mm-hmm ... they're calling a dollar. Mm-hmm. But the, but the Amer- the, the United States dollar is a gold worth 4,000. Mm-hmm.

Unknown speaker 17:45
What's the likelihood you'll ever pay the debt? Never. Never. You can't. Mm-mm. You can't. And that's what they've done.

Unknown speaker 17:55
They've got, they've deceived people at a level that nobody will ever understand. Yeah. Well- They took the, they, they took the gold out and then they took away the dollar sign. Yes.

Unknown speaker 18:04
And everybody still thinks the fucking peso sign is the dollar sign. Right. Yeah, yeah. It's not. I know. It's the peso. I remember that from a long time ago. And the paper money is, uh...

Unknown speaker 18:16
You can, I mean, you could never pay off a debt- In even, even in just the paper money because you have to m- create more money than what was originally there to even... That's what they do.

Unknown speaker 18:29
There's never... It's, it's impossible. It's impossible. Well, you're, you're talking about usury. Yeah, absolutely. You're talking about, well, if, if, if I'm, I'm gonna create $100. Mm-hmm.

Unknown speaker 18:42
But I'm, but there's a service charge to the $100, so I'm charging $5 to create the 100. Right. So I put $100 out into circulation- Mm-hmm ... but I, but I'm due 105. Right.

Unknown speaker 18:53
That's impossible- Right ... to pay that. Right. Yeah. Well, the Federal Reserve System, the Federal Reserve is that tract of land. It, the reservation is the tract of land or the island. Mm-hmm.

Unknown speaker 19:06
And, and, and it, the federal is the covenant between God and man. Yeah. So you got this island territory where there's an exchange.

Unknown speaker 19:17
That's the, that, that, that's where the, uh, the conversion occurs. Right. But the problem, again, it, it's the frame. Mm-hmm. Everybody has fallen for the frame. Mm-hmm.

Unknown speaker 19:34
They believe that, that, that there's a government that, that... Okay, and one last thing about usury. Usury is not, I mean, on the biblical side, on the Bible side, usury is unlawful. Mm-hmm.

Powered by Notta.ai

Unknown speaker 19:48
The Christians are, are, are, uh, forbidden to charge interest. Right. The, the Christians are, are, are forbidden to charge interest according to the Bible, but the Jews can fucking do it. Right.

Unknown speaker 20:02
So you got this population of people that are outside the Christian calendar, which is the Gregorian calendar, which is the civil calendar. Yeah.

Unknown speaker 20:08
And all those inside the calendar, inside that frame, they can't charge usury on lending money. But the people before that, from zero to one, all of them, they can charge interest.

Unknown speaker 20:22
And that's, that's what the island is, is- The anno mundi ca- a- anno mundi- ... is, is in- ... world is before th- is before the Gregorian calendar, zero to one. Right.

Unknown speaker 20:32
And so those operating inside that anno mundi calendar can charge usury. Yeah. But according to the Bible. Right. Which is also a frame. Mm-hmm. Yes. Again, nature doesn't give a shit. Mm-hmm.

Unknown speaker 20:46
There are no squirrels out there that are worried about usury. Mm-hmm. I can actually hear them chuckling right now. I'm in the basement. The squirrels are laughing at me.

Unknown speaker 20:56
They're laughing at me because they're going, "Those fucking humans are idiots." Yeah. Yeah, it's, it's... This document is so unbelievable.

Unknown speaker 21:11
I mean, you're, you've, you've pulled out all kinds of amazing things, and I'm gonna tell you right now. I mean, think about this.

Unknown speaker 21:17
So, so Moses and his brother go for a walk, and they end up at the base of this mountain. Mm-hmm.

Unknown speaker 21:26
And Moses says, "I gotta go up there because I got called by God and He wants to give me some, some rules." Uh, the Ten Commandments, as a matter of fact. So Moses goes up this hill.

Unknown speaker 21:35
He goes up to the top of the mountain, and God gives him the Ten Commandments, and he's up there a really long time. You know? Mm-hmm.

Unknown speaker 21:41
I mean, he, it, it took him a while to get up there, and, and, and then he was up there and he was getting these giant stone tablets or whatever, and, and, and, you know, God was giving him this, this, the, the Ten Commandments.

Unknown speaker 21:52
But while he was up there, the, the, the idiots down below, they were all restless and they said, "We, we need somebody, something to worship." Yeah.

Unknown speaker 22:01
I mean, that's what, only idiots wanna worship something else anyway. Mm-hmm. And, and, and so Aaron, who happened to be an attorney, I mean, in that world, he s- he says, "Okay.

Unknown speaker 22:11
Uh, give me all your gold. Earrings, rings, bracelets, whatever, and I'll melt it down." Mm-hmm.

Unknown speaker 22:17

notta
"I'll melt all your gold down into something you can worship." And so the people that were with them all hand over their gold. House Joint Resolution 192, the confiscation of gold.

Unknown speaker 22:30
And, and, and Aaron melts all of their gold into a golden calf idol. Right. And so now they got something to worship, the golden calf. And it, and, but they had to give up all their gold to do it.

Unknown speaker 22:44
Mm-hmm. So they gave up their true pr- their property, their ownership. Mm-hmm. And, and they got in return the American Idol. Yeah. The birth certificated character. Mm-hmm.

Unknown speaker 22:56
Which is supposed to be representing the sack, or the sacrificial lamb, or whatever, and but they had to give up their, their stuff, their gold. Right.

Unknown speaker 23:07
And so now they, a- again, now they have this golden calf to worship, and then Moses comes down with the Ten Commandments and goes, "What the fuck?" "What the fuck are you guys doing?" Yeah.

Unknown speaker 23:24
And, and of course, now they're, they're, they're completely messed up because they've already, all their gold has been taken by the, the attorneys or the, the attorney, Aaron. Mm-hmm.

Unknown speaker 23:33
Uh, Moses' brother. And, and, and obviously this is my version. Yeah. I like your version. And so now that's what they got to use.

Unknown speaker 23:45
They wanted to worship something, so they, they ended up worshiping the representation of gold. Yeah. Which is the golden calf. Mm-hmm.

Unknown speaker 23:52
Which is the American Idol, which is the birth certificated person. Mm-hmm. But they had to give up all of the property, all of their ownership to that gold. Yeah.

Unknown speaker 24:00
And, and then, then they got a, a, a representation- Yeah ... of that gold. Mm-hmm. And that representation of that gold is the birth certificated character. Yeah. The golden calf. Mm-hmm.

Unknown speaker 24:10
Um, of course, gold can al- gold also, again, could be God, which is your life. Yeah. The life force. Which is what you gave up. The, the, which is why it's a vital record.

Unknown speaker 24:19
But they, so you give up God- Just as a marker where the gold is located. Mm-hmm. You know what I mean? Yeah. But so now you have to do what? You have to go bend a knee to the, the clergy. Mm-hmm.

Unknown speaker 24:35
Because they're controlling the first estate, and the first estate every... I mean, is where it lands into the uterine wall, which becomes the island territory.

Unknown speaker 24:44
So the, the clergy's the one that's actually doling out the, uh, the benefits of clergy, but better known as the legal fiction, and they're the only way that you can, you, you can pay the bill to the United States or federal government.

Unknown speaker 24:58
Yeah. Yeah. It's sickening. Yeah. Absolutely sickening. Yeah.

Unknown speaker 25:03
So the other one, another one I highlighted is the court said that, uh, that case, that is, that it was impossible in the nature

Powered by Notta.ai

notta
of things that those two dollars should be actual equivalents of each other, and that there was nothing in the Currency Act purporting to make them such.

Unknown speaker 25:24
Article 42 of the Lieber Code. Mm-hmm. Yeah. With the, the, the, the confusion of things with personality. Yeah, yeah. And that's... So, so that...

Unknown speaker 25:34
So every, all these court actions for things are in rem. Mm-hmm. I act, act upon the thing, but the thing doesn't exist. If you're talking to me right now- It doesn't exist ... it, it can't exist.

Unknown speaker 25:45
Mm-hmm. That, that legal fiction cannot ex- exist if you do. That's why anybody that's acting separately upon that, that situation is in danger- Mm-hmm ... ultimately.

Unknown speaker 25:56
Now, not in their world, they're not.

Unknown speaker 25:59
But if you want to clear the account completely, and you want to be recognized or known as, no, not recognized, but known as, um, the king, uh, you can't use that damn thing. Mm-mm.

Unknown speaker 26:12
Not now, not in that fashion. Yeah. And I'm using, I'm selecting words specific to this. Not in that fashion. Yeah. 'Cause to fashion something is to, to cut it, to- Right ...

Unknown speaker 26:20
to tailor it, to do it. Mm-hmm. You know, to make it fit something, to fashion it. Yeah. Um, of course, the fashion can also mean the clothing of the times. Yes. It could be a toga. Mm-hmm.

Unknown speaker 26:31
Maybe that's what it is. Maybe the toga- Mm-hmm ... is, is that garment that, that draped over you that, that, you know, it, it, it blanketed you. Mm-hmm. I don't know.

Unknown speaker 26:40
I'm just throwing words out there for people- Right ... to look up.

Unknown speaker 26:43
So then, so at the end of that, um, sentence, it had parody, and I'm like, "Well, I don't really know what parody is." And two of two nouns said the state or fact of having borne offspring, B-O-R-N-E.

Unknown speaker 26:59
And- It doesn't, it doesn't say B-O-R-N-E. It does. Well, there's, there's the legal fiction right there. Exactly. It's, it's, it's something that transmits. Mm-hmm.

Unknown speaker 27:08
Borne is a transmission, a form of transmittal. Oh, okay. So they're transmitting something, B-O-R-N-E. Hmm. The borne identity. Yeah. I mean, he was found out in the waters. He didn't...

Unknown speaker 27:20
He was f- uh, uh, Jason Bourne was found out there in international waters- Mm-hmm ... floating with two bullet holes in his back, and a, and a Swiss bank account- Mm-hmm ...

Unknown speaker 27:29
you know, you know, embedded in his, in his body. Yeah, right. The, the chip. This... Oh my God. So I'm gonna go back to that document real quick. Yeah.

Unknown speaker 27:48
And he also, it also had the number of children previously B-O-R-N-E in parody. Yeah. I, I... Which are the legal fictions or the- Wow.

Powered by Notta.ai

Unknown speaker 28:03
I mean, 'cause, um, B-O-R-N-E is not the same as B-O-R-N- Mm-hmm ... which would be substantial or substance. Right.

Unknown speaker 28:11
Um, it's, it's, it's really unbelievable the, the length at which they go to, to, to- Obfuscate everything ... re- yeah, re- remove somebody's ability to actually speak for themselves.

Unknown speaker 28:23
And this is, I'm absolutely certain the fucking Bar Association is, is 100% RICO. Yeah. I- 100% RICO. Mm-hmm. And whether, whether the participants know or not. Right.

Unknown speaker 28:35
Again, this is where those participating as attorneys lose, uh, lose to the idea that, um, ignorance of the law is no excuse. They can pretend all they want, but they're not, they're not in law.

Unknown speaker 28:49
Mm-hmm. They're at law. So the, the adjective of borne, B-O-R-N-E, is transported or transmitted, so that's when you're saying it's a transmitting utility. It, it's a transmitting utility.

Unknown speaker 29:02
It, it's, it's, it's a, it's used. It's a util- they're, it's utilized. So here, here's, here's the excellent story, Linda. This is really fun to wa- think about.

Unknown speaker 29:13
So, so you get on this commercial vessel. Mm-hmm. You have this island. You're the owner of the island. You're the owner of the kingdom on that island. Mm-hmm. You're, y- you're the king. Yeah.

Unknown speaker 29:26
But you, you decide to go on a, on a, on a cruise. Hmm. And you get on a boat. And I- you're gonna meet me in Ireland or in Scotland. Mm-hmm.

Unknown speaker 29:39
Because I wanna drink some interesting beers and play some interesting golf courses. Mm-hmm. And so you, the king, gets on your boat, and you leave, and you meet me in Scotland. Mm-hmm.

Unknown speaker 29:56
Do you wanna take all your gold with you? No. No, you leave it all back there on the island, don't you? Mm-hmm. And, but you leave somebody back there, a domestic servant.

Unknown speaker 30:05
You leave a fiduciary back there on the island that handles your account while you're gone. Mm-hmm. But you're in Scotland with me and Debbie. Mm-hmm.

Unknown speaker 30:15
Or actually, you and Becky are in Scotland with me and Debbie. Yeah. I, I'm including Becky at this point. She- Mm-hmm ... she, she's not working either anymore. Right. Because it's a kingdom.

Unknown speaker 30:24
And so you- we're all, the four of us are having dinner at some pub, and I'm just getting stupid because that's what I do. Mm-hmm.

Unknown speaker 30:30
And, and 'cause I'm excited about the round of golf we're- I'm gonna, I'm gonna pay the bill. And what do you do? You take out...

Unknown speaker 30:44
I mean, the, the, the waitress comes over and says, "It's, it's, it's 1,000 pounds. It's 1,000 euro." Mm-hmm. And, and what do you do? You sign your name. Mm-hmm.

notta

Unknown speaker 30:54

You sign R period, or you sign, you know- M period ... M period. Mm-hmm. What do they do? They go back to their accountant. Mm-hmm.

Unknown speaker 31:06

And that accountant runs that account your, that, that is attached to your kingdom back at the island. Right. And so that, the money leaves the island now and is transmitted over to Scotland.

Unknown speaker 31:19

Mm-hmm. It never leaves the island unless you sign for it. Right. U- usually you're signing next to the X. Right. And, and then it gets transmitted. Mm-hmm.

Unknown speaker 31:30

That, that's, so that's how commerce is working. Your gold, your money stays on the island. Uh-huh.

Unknown speaker 31:37

And wherever you go away, when, when you're away from the island, wherever you are out here, outside the womb, Linda- Mm-hmm ...

Unknown speaker 31:45

wherever you are in your vessel buying things, you're not paying in gold 'cause you don't wanna carry all that around with you. Right. Contracts payable in gold, but they're not using the gold.

Unknown speaker 32:00

They're using the script that is used out here- Mm-hmm ... in commerce. Right. So when you're, when you buy a loaf of bread, or you buy a new car, it goes back to the island.

Unknown speaker 32:14

And, and what it looks like is an extension of credit- Right ... from the island to wherever you are in the present. Yeah. It looks like an extension of credit even though you're the owner.

Unknown speaker 32:25

So the reality is, is the island is your bank. It's your bank account. Mm-hmm. Remember, your boat, your kingdom is on the bank. Yes.

Unknown speaker 32:34

And that bank extends credit while you're out away from the island. You can go buy anything as long as you have the value back there on the island, in the bank. Right.

Unknown speaker 32:46

And, and then, of course, all they do is they contact the island, and the island says, "Yeah, there's enough here." And they, and then it zeros, it goes back to zero. I mean, there, there's no debt.

Unknown speaker 32:56

Mm-hmm. What happens if you get cut off from your island? Then all there is, is debt. No, there, there's no way for you to pay the bill. Yes.

Unknown speaker 33:03

You know, we're in Scotland, and we're sitting there, and you go, "Kurt, I'll take care of this." "All right." I mean, we're both kings. It doesn't matter who pays for it, but- Right ...

Unknown speaker 33:10

but you see, but as a nice gesture you say, "I'll take care of this." Mm-hmm.

Unknown speaker 33:13

And then they, then the, the, the, the, the maitre d comes over and says, "I'm sorry, uh, queen." "Your credit isn't good." "Your, your, your, the, the, your card's not working." Mm-hmm.

Unknown speaker 33:24

"Or your signature's not working." Right. "What are you talking about not working?" "Yeah. It's not... We tried everything,

Powered by Notta.ai

notta
and we can't, we can't get through to them. We can't get connected.

Unknown speaker 33:34
We can't get linked up." "Oh, I've been cut off." Mm-hmm. That's the cutting of the umbilical cord. Yeah. That when they clamp and cut you off from your kingdom, there's no way to pay. Mm-hmm.

Unknown speaker 33:45
The only way to pay then is to go to the church or go to the clergy and say, "Hey, listen, can you get, can you talk to God for me?" Mm-hmm. My, my, my, uh, my direct link to God has been cut off.

Unknown speaker 33:57
Mm-hmm. You mean gold? Yeah, whatever. Yeah. My... You mean gold? Yeah, whatever. God, gold, whatever. Mm-hmm. Yeah. My direct link to gold, I mean God, I mean gold- Sure ... has been cut off.

Unknown speaker 34:12
And so, you know, I, now I have to use a middleman. Yeah. So now this other guy comes in and says, "I can help you. You know, I got a link. I, I can get a, I can get a, a link back to your island.

Unknown speaker 34:25
I can get a link back to your kingdom." Mm-hmm. And he says, "I'm gonna take, I don't know, 40% of the transaction fee." Mm-hmm.

Unknown speaker 34:34
So he, he, he pays the bill, but now all of a sudden that, that, that $1,000 that, that you, our meal was is now 1,400. Mm-hmm. Because it was the thousand to the meal and 400 to the middleman.

Unknown speaker 34:48
Usury. Yeah. That's the federal fucking reserve. Yep. So they're extending what is already yours, which is only, the thousand would have paid for it. Mm-hmm.

Unknown speaker 34:58
But because you're using the middleman, the clergy or whoever, they're gonna take their 40% or 50%, and they're gonna call it a tax. Yeah. And, or, or management fee or whatever.

Unknown speaker 35:12
So now even though the meal only cost 1,000, which is, it was a good meal, thank you very much, um, it actually out of your account comes 1,400. Right.

Unknown speaker 35:22
Because you had to use the middleman to reconnect or to, to your, to your account. Mm-hmm. You, y- if you had a direct link, if you weren't cut off, you wouldn't have needed the middleman. Right.

Unknown speaker 35:37
But that's why they clamp and cut the umbilical cord because then you have to use their middleman to get back to your bank account on the island. Yeah. That's, that, that's how it works. Yep.

Unknown speaker 35:49
Do you see it? Yeah. Yeah, I see it. You're the owner. Yeah. And, and what is, and what, what is the island? Well, it's the Montevideo island, Linda. Mm-hmm.

Unknown speaker 35:57
And the Montevideo island correlates directly with the, the nation under God or the, the, "Today is the day of national consecration," to the Holy Land. Mm-hmm.

Unknown speaker 36:05
And of course, Montevideo called it a state as person. Mm-hmm.

Unknown speaker 36:09
And that, that state is where all your money's located, but you can't get to it unless you go through their, their birth certificate and middleman.

Powered by Notta.ai

Unknown speaker 36:19
Unless, you know, I'm all present and accounted for. Unless, unless you actually get it- Mm-hmm ... all the way and you go, "Oh, my God. I've been cut off from God-" Mm-hmm ...

Unknown speaker 36:27
which means I'm cut off from gold." Right. And the L is marking the spot on the beach. Mm-hmm. I have to call God to get to my L- Mm-hmm ... my gold. And who's God?

Unknown speaker 36:40
Well, that's the birth to state clergy. So I have to call God to get to my- On the beach Yeah. Wow. Fucking amazing. Wow. Well, you did this. You're the one that did this.

Unknown speaker 36:54
You, you're the one that discovered the L. Yeah. L if I know. L, L if I know. Um- It's really funny too, because the idea of the elephant- Uh-huh ... in, in the room. Elephant. Oh, man.

Unknown speaker 37:14
Of course that's E-L. Yeah, so it, so it is, E-L. Oh, man. Oh, man. So this, it really is this big. Yeah. And, um, by the way, I gave you the answer.

Unknown speaker 37:26
When you, when you just skim over this now- Okay ... when you skim over it... By the way, I'm, and, and, and for, I mean, you, you know a lot of this other nu- numerology stuff too. Mm-hmm.

Unknown speaker 37:37
What is the number, and, and just you can say it, but what is the number for completion- Zero ... in numeral? Okay. There it is. I just, I'm not gonna say any more. Oh, wow. Completion. Wow. Okay.

Unknown speaker 37:50
Well, now, now you have all the answers. Hmm. But I, I was just thinking about this too.

Unknown speaker 37:57
People go, "Why don't you just fucking tell them?" Because you're trying to get us to really take it in ourselves and make it ours. Yes. What, what is it, what is that old saying?

Unknown speaker 38:07
You can teach a man to fish, or you can, you can, you can feed a man a fish and he eats for a day. Yep. You can teach a man to fish- Mm-hmm ... and he'll eat for a lifetime. Yep.

Unknown speaker 38:18
I'm, I want people to think critically to understand what they're looking at so that you, A, you don't ever need me when I'm gone. Yep.

Unknown speaker 38:25
And that you can think clearly enough to go, "Holy shit." I mean, the, the, the greatest movie ever regarding this particular situation is Trading Places. How many times have you watched that movie?

Unknown speaker 38:36
I don't know. Well, I'm just saying that if you haven't watched it 100, you're probably missing the boat. Yeah. Literally missing the boat. The boat, yeah.

Unknown speaker 38:43
Because the island character, the, the, the, the, uh, um, the Black, the person of color is on the island. Mm-hmm. That's the legal fiction. Yep.

Unknown speaker 38:59
And, and the boat, when it comes and, and reattaches to that island at the end, I mean, you got the Dan Aykroyd character wearing a red, white, blue vest. Yeah.

notta

Unknown speaker 39:12
And that's, that's the whole, that, that's all of it as one unit. All of it as one unit. I mean, they're celebrating because they won. Yeah.

Unknown speaker 39:21
So the baby umbilical and extraembryonic is one, as one kingdom, is my king- thy kingdom come, my kingdom come- Yeah ... on Earth as it is in Heaven. Yeah.

Unknown speaker 39:31
But what did they get everybody to agree to? "And forgive us our trespasses as we forgive those who trespass against us." They built it in to say, "No, you know what?

Unknown speaker 39:39
The, the Lord's Prayer is saying that you've already forgiven us- Yeah ... for trespassing upon your kingdom." Right. But they built it in. Yeah, wow.

Unknown speaker 39:48
I don't care that, I don't care that nobody, nobody's in trouble, Linda. What I want is I want my fucking kingdom. Mm-hmm. I want access to all of the value, and I don't ever...

Unknown speaker 39:58
There is no middleman, no usury. Mm-hmm. Because there is no, there is no separation between zero... The Gregorian calendar's the problem. Yeah. It's a subset of the Adamundi calendar. Mm-hmm.

Unknown speaker 40:12
And so when they clamp and cut the cord, and they start a new calendar all the way from year 1 to 2026, that, all of that is subjected to usury. Interest. Trust law. Yeah.

Unknown speaker 40:28
But from zero to this moment, it isn't. Mm-mm. They, they might even say, "Well, the Adamundi calendar belongs to the Jews." Fuck the Jews. Mm-hmm. It's still another frame. It's just another frame.

Unknown speaker 40:41
Mm-hmm. The Jews are another frame. The label of Jewish is a frame- Yeah ... to divide and conquer. Yeah. The label of Chri- There are no Jews. Right.

Unknown speaker 40:49
The label of Christian, the label of Muslim, all of it. They're all labels. They're all- They're all frames ... they're all frames. They're all frames.

Unknown speaker 40:59
And, and, and the, the squirrels are laughing at us. Every once in a while I'll see a tree turn towards me, and go, and just shake its branches- Mm ...

Unknown speaker 41:09
like, "Goddamn, you people are stupid." Mm-hmm. Let me have my nuts. No, that's what, that's what most of the boys have to say. Say, "Give me my nuts back." Yeah.

Unknown speaker 41:23
"I want my nuts back." Oh, that's right. They're, they've been legally castrated- Right ... by, by the fetal maternal infancy- Mm-hmm ... forever. Yep. They don't have their nuts. Yep.

Unknown speaker 41:33
They become a eunuchorn. Yeah. A unicorn. Yeah. Wow. Think about that. Wow. I mean, are unicorn... Well, every once in a while we, we find a unicorn. No, I'm the fucking unicorn. Wow.

Unknown speaker 41:45
But wait, so the island territory is a eunuchorn. Wow. What happens when you find it? Um. Are you all present and accounted for? Present and accounted for. Mm-hmm.

Powered by Notta.ai

notta

Unknown speaker 41:56

The, the accounted for is the unicorn. Right. Wow. But nobody sees it. Uh-uh. Okay. I'll, I'll leave you with this, because it's so beautiful. Um, I guess it would be a gift. There it is.

Unknown speaker 42:17

Matthew 7:14. King James. Look at this. "Because straight is the gate, and narrow is the way which leadeth unto life.

Unknown speaker 42:32

And few there be that find it." If, if you don't come out of her, if you can't get out of her, what's the only means to come out of mom? The umbilical cord. The umbilical. Mm-hmm.

Unknown speaker 42:42

Most people think that it's the, it's the, uh, birth canal. ... extension of the umbilical cord that allows you to exit in- into the, into the space, into the world beyond the womb. Mm-hmm.

Unknown speaker 42:56

Into the- And keep you- And- And, and be connected whole with- Right ... everything that happened Because your umbil- Your, right.

Unknown speaker 43:01

Your belly button evidences the extension of that cord, which evidences the link back to the kingdom, which evidences not only the, the, the, uh, the root system, but it also evidences the soil.

Unknown speaker 43:12

Yeah. Had they delivered all of it, baby, umbilical and extraembryonic membranes, into the present moment, you would've been wholly present from that moment on- Mm-hmm ...

Unknown speaker 43:20

and not fixed in time or frozen in time on a calendar. No.

Unknown speaker 43:23

But they had to clamp and cut you off so that you end up going inland, in the air, but your sep- your kingdom's been separated from you and placed, placed, uh, on that beach, on that island that then they could manage through the, uh, the first estate clergy.

Unknown speaker 43:40

Mm-hmm. And God, now this, by the way, was huge, what you found, God and gold. Yeah. The L. Just like when you take the I out of jesuit- Mm-hmm ...

Unknown speaker 43:51

you take the L out of gold and you end up having to bend a knee to God. Right.

Unknown speaker 43:56

And the only one that, that, that has access to that bank account, which by the way, I mean, in, in the, uh, The Da Vinci Code movie, when they go to the Swiss bank, when they go to the Swiss bank to access her account number- Mm-hmm ...

Unknown speaker 44:15

you walk, they walk in the bank and, um, there's a giant well-lit V symbol right at the top of the screen, giant V. Wow. The V symbol is the divine proportion. Right. Wow.

Unknown speaker 44:30

The golden ratio- Mm-hmm ... which is, which is all of you- Yes ...

Unknown speaker 44:35

from fertilization to last breath, or if you really wanna think of fertilization to last breath, think of all of mankind, the origin of the species, all the way to this moment, because your 46 chromosomes goes all the way back to the, the, the beginning of mankind.

Unknown speaker 44:49

Mm-hmm. Somewhere along the line. You have a direct link to the origin of man, and that's the golden ratio. That's Phi.

Powered by Notta.ai

Yeah. And that's what, that's the symbol that's in the bank, the Swiss bank.

Unknown speaker 45:02
And of course, the S- the Swiss banks are the ones that are probably holding this, this money. Yeah. This, this, this account. Yeah. What, what a call. Wow.

Unknown speaker 45:20
I still don't know the pr- the sentence, though. Oh, yeah, but I, I... Yes, you do. No. I, I mean, I, I won't say it, but I'm gonna lead you to it right now. Okay. I'm going back.

Unknown speaker 45:29
So you, you discovered... I mean, I'm gonna... Now I have to read this thing again because of you. No. No, I have to because now I, I have the L eye. Yeah.

Unknown speaker 45:39
Well, you said gold was God, so I started reading it as God, and then I was like, "Well, what does the L mean?" And that, and you found it. Mm-hmm.

Unknown speaker 45:50
And that, now, and now the contract's payable in God, if they take the L out and they place it on that island, the contract is payable in God. Mm-hmm. And God is that, um, in name only. Yeah.

Unknown speaker 46:04
So one of the sentences I took out is, "In other words, the contract creates an obligation to pay dollars in God, satisfied by tendering the stated number of dollars in any form that is legal tender in the United States." So then I look at- That- ...

Unknown speaker 46:21
tender ... that, but then you have to understand what the United States are. Yeah. That's states united. My, and my, what I've discovered along the way- Yeah ...

Unknown speaker 46:29
are the two states united, the unborn and born into one. Right. Right. And what, and that space in between those when they create the cut is actually that steppingstone island. Yeah. Yeah.

Unknown speaker 46:38
That evidence is the United States, the state of, or heaven and Earth, those two states of existence. Mm-hmm. Or mind and body. Yeah.

Unknown speaker 46:46
Because when they clamp and cut the cord, they take your personality, which is your biology, which is on deposit on that island, which evidence is a decedent's biology.

Unknown speaker 46:54
But what happens if you're out here living? There is no decedent. There is no decedent.

Unknown speaker 46:59
So now if you, if, if, if my mind over matter, if my consciousness recognizes that I, I am no body, nobody- Mm-hmm ...

Unknown speaker 47:07
because I've left it behind on that island, and they have a record of my biology on that island, now I'm nobody. Mm-hmm. I'm, I'm nobody. No body.

Unknown speaker 47:18
I have no body because my biology terminated, a terminal point- Mm-hmm ... on that island. Mm-hmm. And then they created an effigy. What, well, well, cor- you mean a, you mean a, a headstone?

Unknown speaker 47:30
Well, you could call it a headstone, but headstones are typically for, for, for dead bodies. Mm-hmm. But, but remember that what they have is they have a, a sort of a tomb without my body. Mm-hmm.

Powered by Notta.ai

Unknown speaker 47:41

A tomb without a body is not a, um... Well, it's not a tomb. It's an effigy. Right. Because an effigy is basically a tomb without the remains, without the body. Mm.

Unknown speaker 47:53

I'm using it now, so it's not there. When, if you go there and you look for, for me, I'm gone. Mm-hmm. Just like when Jesus rolls the stone away and comes out of the fucking, uh, cave. Mm-hmm.

Unknown speaker 48:03

I'm not there. Right. So everything they're doing in their theocracy parallels or works perfectly with their biblical account, including the Jews having access or cr- or, or being able to, to lend.

Unknown speaker 48:17

Of course, the, the Jews are running the, the Federal Reserve System, so they're the usury. Mm-hmm. The, the interest on, um, that deposit, um, only ex- the interest only extends to the Christians.

Unknown speaker 48:29

Right. The, the, the Christian Gregorian calendar, uh, civil calendar character. Mm-hmm.

Unknown speaker 48:33

So they're able to extract interest from those characters because they don't understand that the present moment- Yeah ... over, uh, supersedes the, the Anunnaki calendar.

Unknown speaker 48:45

The present moment supersedes the Gregorian calendar. They're all fictions. Mm-hmm. Fictio veritatis is the truth. Yeah. Will make you free, and it does, but you gotta know this shit. Right. Okay.

Unknown speaker 48:59

So I, I told you I was gonna. Here I go. I'm gonna do it. I'm sorry, what was the, uh, number for completion in, uh, in the Brown- Nine Okay. Well, n- what does that tell you?

Unknown speaker 49:15

That I should look on page nine. So, and completion. It's gonna jump out at you now. Just scan the whole page when you get there. What's the key?

Unknown speaker 49:54

What do, what do, what, what do I harp on all the time regarding the monarchy? What is the only thing that has to happen in order for you to be completely free from the bondage?

Unknown speaker 50:06

Remember, if you're sharing- Ownership ... if you're sharing anything- Mm-hmm ... then more people have a right to speak about it. Mm-hmm. What gets rid of somebody speaking about- Ownership ...

Unknown speaker 50:24

something? Th- okay, there it is. Yeah. Okay. So, okay, I see it. I'll shut off- And- ... record ... oh, no, it's okay. It doesn't even matter to me.

Unknown speaker 50:35

The point is, well, there were two or three people that actually found it through, on their own right away. Mm-hmm. Yeah. The, the whole idea is this. In this, this is page nine out of t- out of 10.

Unknown speaker 50:47

So 12. Mm-hmm. Is there tw- uh, no, I... Well, I, these are... You're, you're saying 12 total pages. Yeah. But only 10, right? But, but, but I'm talking page number. Yeah. Yeah.

Unknown speaker 50:57

And there are only nine page num- or 10 pages. Mm-hmm. So page nine, when you realize it's right at the very end of all this, all of it. Mm-hmm.

Unknown speaker 51:12

If you really read this knowing full well what the word effect means, if you know what you just discovered on the gold and the L leaves God, and L means this based upon this, this audio that we just created.

Unknown speaker 51:27
Mm-hmm. I mean, I'll have to re-listen to it myself, but it says on, at, at, at the page of completion, "The ultimate ownership-" Right ... "of all property is in the state." What state, Linda?

Unknown speaker 51:42
The state of wholeness. No. What state? Present. That's a good guess. But what did they create back then? Remember, this document's from 1933. The nation. No. Oh. Right.

Unknown speaker 52:06
But that's the, that's the beginning, but what, when did they create this state they're talking about? In the Montevideo? They're... The state as person. State as person.

Unknown speaker 52:17
So the ultimate ownership of all property is in the state. What state? The state as person through the Montevi- What state is that? That's the island. Yeah.

Unknown speaker 52:25
So all of your ownership, everything you have, was cut off of you. Yeah. And it, and it's back there on the beach of that island, interstate, between the two states. Mm-hmm.

Unknown speaker 52:39
The United States would be all present and accounted for from fertilization to last breath. The, the unborn and born- That's right ... as one. That's the United States, the two states united.

Unknown speaker 52:48
But when they clamp and cut the cord, you create the terminal point. They created the decedent estate. Which is the state as person. That only the clergy can lead you to. Mm-hmm.

Unknown speaker 53:00
And look, that- So crazy ... so look at that. Yeah, the ultimate ownership of all property is in the state, but then look at that semicolon. Mm-hmm. And it says, "Individual." So cool.

Unknown speaker 53:10
1 USC, 1 USC 8- Mm-hmm ... is a statute. Right. Statutory character built on the, the infant member. Mm-hmm. It says it, individual right in the title. Yeah.

Unknown speaker 53:23
Individual so-called ownership is only by virtu- virtue of government. What government is that? That's Isaiah 9:6. Okay. "And the government shall be upon his shoulder." W- well, what, what...

Unknown speaker 53:36
Whose shoulder? His shoulder. Whose shoulder? His shoulder. The old individual, well, the- Right, but it's Jesus. Mm-hmm. Wow. It's Jesus, His shoulder.

Unknown speaker 53:50
"And the government shall be upon His shoulder," Isaiah 9:6. Well, what, w- don't they talk about the nativity of Jesus? Yeah. Where's, where is Jesus's nativity? On the island. On the island.

Unknown speaker 54:09
Mm-hmm. That, that, the, the native. And of course, in trading places, they, he's portrayed by a Black man. Mm-hmm. A native. Yeah. Uh, an indigenous person to the island.

Unknown speaker 54:29
So you got this native on this island. He doesn't ha- individual co- so-called ownership is only by virtue of government. Well, but it's separate. That character is separate from you- Yeah ...

Unknown speaker 54:43

because of the cut. Mm-hmm. It says, "I.E. law amounting to mere user." What is M-E-R-E? M- um, mother. Mother. Mm-hmm. That's the matrix. Yeah.

Unknown speaker 54:56
And the, the matrix for a, for a, a, a male is a mama's boy. Yeah. If you're still stuck in, in, in Mom's womb, you're a mama's boy. ... lack legal capacity because you'll always remain the infant.

Unknown speaker 55:10
Mm-hmm. So there are no men left in the world because they're just mere users, the user of mother. Right.

Unknown speaker 55:18
And it says, "And use must be in accordance with law and subordinate to the necessities of the state." What state? The Montevideo State. The Montevideo state as person.

Unknown speaker 55:28
So the federal state, small F, man's covenant with God. Or covenants, I could... No, I can say it better. Covenants between God and man.

Unknown speaker 55:39
That's what the- that's what actually, that's the actual definition. Mm-hmm. Covenants between God and man. So God begins at fertilization. Mm-hmm. Versus state. Man is outside the womb. Yes.

Unknown speaker 55:56
What's the thing that in between God and man? The accretion. The island. The island. The state as person. Wow. So I have this crazy thought. Okay. Keep, say it out loud so everybody can hear. Okay.

Unknown speaker 56:12
So it is if... Okay, it's I land. His land or I, uh, his land. Yeah. Yeah. So it's looks like they took the I out of Je suis and made the island. The I land. The I land. Mm-hmm.

Unknown speaker 56:43
So they took I, the... It's like they took your sover- your ownership out of Je suis, I am, and put it on the, um, on their character man as the Montevideo as I land. Right. But if they...

Unknown speaker 57:06
Th- th- you're absolutely correct, but think about I, the I land. Mm-hmm. Are you speaking about anybody else when you say I? No. No. So it's an individual. Yeah. Right.

Unknown speaker 57:19
The I land is for individuals, and it says right here, "Individual so-called ownership is only by virtue of government." Yeah. So the I land is, is you alone claiming the island. Wow.

Unknown speaker 57:35
But we, we is what? Collective. No, no. We. If I write the word we on one of my documents, what am I talking about? All of you. The royal we. Yeah, the wholeness. No. The royal we is me and God.

Unknown speaker 57:59
Yeah. Right. And, and where does that come into play? From fertilization to last breath. From last breath. Mm-hmm. So the breath, the spirit, the cr- moment of creation is me and God, the royal we.

Unknown speaker 58:11
But if I say I, am I s- am, am I only, am I, am I the only one? Am I stuck on the island? Yes, you're stuck on the island. It's the I land. Mm-hmm. I land. I, I'm stuck on it. Mm-hmm.

Unknown speaker 58:25
It, it becomes a prison- Yeah ... a cell- Mm-hmm ... surrounded by a fence- Mm-hmm ... the pleura membrane. Yep.

Unknown speaker 58:34
It becomes a s- it, it becomes a, a, a prison system for those that cannot get beyond the I. Yes.

Unknown speaker 58:43

Yeah, that's- Which, which would be the sociopath, psychopath, the greedy people with all these, it's, "I, I, I, I, I, I, I." Don't get me wrong, I have no problem with I, but remember that growth, progression, and ultimately a, a, a world that works, it starts with dependence- Yes ...

Unknown speaker 59:13

with mother, with, with, I mean, mother completely in the womb, and then mother and dad outside the womb. Yes. Mom and dad outside the womb. Mm-hmm.

Unknown speaker 59:21

And then you recognize in the mirror the image of God, and you call it I. You look at the reflection, you go, "I." Mm-hmm. "There I am." Mm-hmm. But you're looking in the reflection, the image.

Unknown speaker 59:38

Right. I mean, i- if you're walking through the woods, do you even consider your image? No. No. You're looking out from the center of the universe. Mm-hmm.

Unknown speaker 59:48

Your, your, your, your existence, you're looking out from it. Yeah. You're not looking at a reflection saying, "There I am." Right.

Unknown speaker 59:56

So the I, e- the I i- i- is, is you perceiving the image of, of reality- Yes ... through the reflection or for the representation, the representation.

Unknown speaker 01:00:10

So you look in the mirror and you go, "There I am." But it's in the reflection. Yes. You don't, you don't put your hand on your knees and say, "There I am." Mm-hmm.

Unknown speaker 01:00:21

When you're, when you're whole in the, in the present moment, you are, but y- y- you're not using a representative of, of, of an image. Right. You don't ever talk about that. No.

Unknown speaker 01:00:33

Now, here's what's funny. From, from the perspective of, of the observer inside the universe, the lord and master over that, that biology, the, the, the second position, which is what?

Unknown speaker 01:00:50

You got dependency first, and then you have what? Independence. Independence, and then interdependence. But- Yeah ... but the independence is the I. Yes.

Unknown speaker 01:01:03

It's the moment when you recognize the self and you start looking at it as an individual. Mm-hmm ... individual make it in this world? No. No, he's on the i- he's on the island, on the I land.

Unknown speaker 01:01:16

Mm-hmm. He's stuck if he doesn't do what? If he doesn't recognize and mature to the point where he understands interdependence. Mm-hmm. Yep.

Unknown speaker 01:01:25

So the, again, they, the, even with the Declaration of Independence, they're saying they're independent from the mother church or from Rome, but it's interdependence which is ultimate maturity.

Unknown speaker 01:01:37

Yeah. When you finally go, "Yeah, yeah, I, I, I get, I understand that I'm, I am 100% responsible for my own existence." Yeah. That's, that's I, that's me being independent. Right.

Unknown speaker 01:01:50

That's full responsibility. Prior to full responsibility, you're the goddamn infant taking... You know what I mean? Mm-hmm.

Powered by Notta.ai

notta

Unknown speaker 01:01:59
You're not, if you're not independent, if you're, if you're not responsible, you fall back into the first position, which is dependence. Mm-hmm. Which is everybody. Yeah.

Unknown speaker 01:02:07
At, at, at one USCA at the end of the member.

Unknown speaker 01:02:10
So but when you finally get it, when, I mean, on the island, the I land, that's the individual, and it's, a- and that island has that name, Curtis Richard Kalibak is the individual. Right.

Unknown speaker 01:02:23
So what happens if I'm using the individual name? I'm stuck on the island. You're stuck on the island. Mm-hmm. I never make it out of her. Mm-hmm.

Unknown speaker 01:02:33
Because that island territory still has me attached to mother. Yeah. So what do I have to do? I have to learn or move beyond my idea of independence into interdependence.

Unknown speaker 01:02:46
And if I move into interdependence, would I be dumping chemicals into the sky? No. Not if I'm interdependent- No ... with everything and everyone. Would I be putting chloride in the water? No.

Unknown speaker 01:03:00
Not if I'm in- interdependent- Mm-hmm ... with everything and everyone. Yeah. Would I put... Would, w- you see what I'm getting at? Yeah. Mm-hmm.

Unknown speaker 01:03:08
I wouldn't destroy everything around me if I recognized or, or if I was mature enough to recognize interdependence over even my own independence. Yes. Yes. That this is huge stuff. Yeah. Yeah.

Unknown speaker 01:03:25
Even for me. I mean, when I say it out loud, I'm going, "Goddammit." Yeah. Yeah. Goddammit. Yeah. And, and, and people think collectivism is interdependence, and it's absolutely not.

Unknown speaker 01:03:40
No, no, that's total dependence. Yes, exactly. They, when they, when they collectivize or communalize to, into communism, they're removing all responsibility. Yes.

Unknown speaker 01:03:51
And now you're just part of the global, the, the, the leviathan of infants. Yes. The Frankenstein of infants. Yes. That, and that's the worst position. Absolutely.

Unknown speaker 01:04:01
Because that's a mass, M-A-S-S- Yeah ... um, or, or democracy is, is exactly that.

Unknown speaker 01:04:07
It, they're, they're saying, "No, everybody has a voice." No, that's, that's, everybody having a voice is communism. Right. They're gonna call it democracy, but it's, democracy is communism. Yes.

Unknown speaker 01:04:17
Where, where the 51%, they're, they, it sounds like they have a vote, but they, they don't. Mm-mm. I see. They're, they, so now, yeah, now the, the, the masses rule.

Unknown speaker 01:04:28
That's co- that's what it, the, the mob rule. Mm-hmm. Yep. Yep. And especially if they're all looked at as infants.

Unknown speaker 01:04:36
Now you got the infants voting through the infancy, the one USCA character, and what are they voting for? Things for themselves. Yeah. I just had a horrible image when you said that. Oh.

Powered by Notta.ai

Unknown speaker 01:04:52
That's what, how it must look like to, uh, those who are in government, these millions of squalling babies. That, that's exactly what it is. Oh, man. So yeah, we, we, we basically...

Unknown speaker 01:05:12
I think that when you talk through this kind of stuff, Linda, uh, Contract payable in gold is an amazing document. Mm-hmm.

Unknown speaker 01:05:18
And what you taught me through this already with the L, removing the L, um, from gold, it turns into God. And then of course the, the coin of the realm is God. Mm-hmm.

Unknown speaker 01:05:30
And then the L is marking the location of the actual gold. Yeah. And that gold or that power of gold is on that island. That's where, that's where the king's ransom is located.

Unknown speaker 01:05:42
And the ultimate ownership. And the ultimate ownership- Mm-hmm ... is, is, um, the whole man from fertilization to last breath. Yeah. That's the ultimate ownership. Mm-hmm.

Unknown speaker 01:05:55
But the, but the individual, the I land, I mean, even Thomas Martel, and I think he was a Catholic, he said, "No, no, no man is an island." Yeah.

Unknown speaker 01:06:06
And that's what that, that's the, that's when people, uh, don't understand the individual has become, um, the I land. Oh, me, me, me, me, me, me, me. That's the I land. Yep.

Unknown speaker 01:06:19
A- and it's the, the, the status person in the federal government. The problem is, is that from fertilization to last breath, it's just part of evolutionary due process. Mm-hmm.

Unknown speaker 01:06:29
And but they, they took it out, they created a terminal point, and then they put all your, your, your gold on that island, and then they extract the L from the word gold, and that L is the marker where that treasure chest, that treasury chest, that Ark of the Covenant is located.

Unknown speaker 01:06:47
And then the only way you can pay the bill when you're outside of that or away from that island, Linda, is to go through the middleman to, to pay when you're away. Yeah.

Unknown speaker 01:06:58
And again, right now, we're not there, so that island becomes the location of our treasury. Yeah.

Unknown speaker 01:07:04
But we can't go back there, so we have to use the middleman or Charon, the, the fairy man through the fairy, federal fairy franchise- Right ... the 14th Amendment citizenship to get what?

Unknown speaker 01:07:15
Due process of law. Mm-hmm ... evolutionary due process from fertilization to this moment. I don't need you to return something to me that I never lost. Right. I'm still using it.

Unknown speaker 01:07:29
I'm still using my, my, uh, th- God's creation. Or I'm, I'm still using that act of God known as fertilization because I'm still, I'm still occupying, I'm still inhabiting the 46 chromosome kingdom.

Unknown speaker 01:07:44
That's, that's my biology. I'm still inhabiting it. Mm-hmm. The king's not dead. Yeah. The king's not dead. No. All right. If you wanna take off the front end of that thing- Yeah ...

Unknown speaker 01:07:55

just so there's no names- Yeah ... and send it to me. It'll, it'll... I don't know. I'm gonna... I have to listen to this because I love what you brought. I, I love the... I love that L. Yeah.

Unknown speaker 01:08:03

It was, yeah. That's huge. Melinda, that is so huge. I mean, uh, it's gigantic. Yeah. Designate. One designated. Only you, only you could have done that. I remember years...

Unknown speaker 01:08:21

I'll leave you with this 'cause it's so funny. But years ago, I remember hearing you, uh, mess around with books- Mm-hmm ... and clicking away on your computer.

Unknown speaker 01:08:28

I'm going, "Goddammit, she's not even listening to me." And then you would come, you would come back with something so amazing, I'm going, "Thank God she didn't listen to me when I was talking." You know, I mean, ser- you're, you're laughing, but I'm not joking.

Unknown speaker 01:08:40

It, you, you, uh, you were, you were going along with me. You'd hear something, you'd go off on your own tangent or trail. Mm-hmm.

Unknown speaker 01:08:47

You'd find this thing, then you'd bring it back to me and say, "Look what I found." I kept walking forward. Mm-hmm. But then you caught up to me and said, "Hey, look at this." Mm-hmm. Yeah.

Unknown speaker 01:08:56

And a lot of times I would be listening and I would s- I would see something and I would hold it because it was like you were on a thread. And it was like- Yeah ... you needed to be on that thread.

Unknown speaker 01:09:06

And always it came back around that it was appropriate to, to mention it later, um.

Unknown speaker 01:09:13

Well, I mean, even on page nine, right, uh, I'm just about to close this up and it says, it says, "The Parity Act is an appropriate means plainly adapted to the end in view." The end. Mm-hmm.

Unknown speaker 01:09:25

Particular end. That was cut off of you. Right. It says, "I.e. to standardize money for use as a national," one nation under God. Today is the day of national consecration.

Unknown speaker 01:09:38

The Holy Land, national medium of exchange. What's that? The body and blood of Christ. Mm-hmm. That's the island. Yeah. That's the I land. So you have to execute the I land.

Unknown speaker 01:09:51

You have to burn the boat. Wow. You have to actually execute it to not be, to, to keep moving forward.

Unknown speaker 01:09:57

Otherwise you're gonna keep going back to it because that's what, "Oh, Mom, Mom, look what Kurt did." Yeah. You're gonna go back to it through the birthday. Mm-hmm.

Unknown speaker 01:10:06

Which is a, a, a 365-day pilgrimage to keep going back to mom's first strings or mom. Right. You have to burn the boat and keep moving forward, 'cause that's what evolutionary due process is.

Unknown speaker 01:10:17

Mm-hmm. It's forward. Yeah. It's forward. Anyway. Wow. Yeah, this is amazing, man. I can't wait to listen to it. Wow. But, yeah, call me. Okay. Well, I'll re- I'll redo it here.

Unknown speaker 01:10:30

Um- Well, yeah, just, just listen. Get the, get the front end off of it and send it to me. I will. Don't, don't lose it. No. All right. I'll be home all day. Okay. All right. Love you, lady.

Unknown speaker 01:10:42

Talk to you. Talk to you. O- Okay, bye. Bye.
